Black's Charges Against Dudley Not Sustained—Foolish Letters to Congressmen—The Gaiter Cure.

(Correspondence of The Indianapolis News.)

WASHINGTON, May 21.—While Commissioner of Pensions Black can scarcely be said to be maintaining his charges against Colonel Dudley, the investigation now in progress develops some interesting facts. The late commissioner is unquestionably a party man, and his charges are not for the sake of the party, but for the sake of the party. He did what he could for the success of his party, as many other men have done, and will do. So far as the investigation has gone, however, there is no positive evidence of his having used the pension office for political ends. Colonel Dudley's known patriotism has had the effect of greatly prejudicing his case. When General Black lodged his annual report a political favoritism under Dudley, doubtless many who knew the latter believed the charge could be substantiated. There has been so much politeness in the management of the people's affairs that we have not believed anything. The most substantial proof of Colonel Dudley's innocence is found in these alleged political cases themselves. I have personally examined some of them. The private letters, the political promises, the party pleadings are all in the case. As Colonel Dudley says, if he had been guilty of granting pensions to applicants for political purposes, he would not have been guilty of this testimony in the files. There was nothing to prevent him from destroying private letters, and no reason why he should have shown such regard to the waste-basket as to make it a plan to foot to call on the commissioners. President, gentlemen, re-issue some and drop others. The indiscreet course of Mr. Dudley is, I think, a fair cause for the great deal of trouble.

SOUTH SIDERS INDIGNANT

Over the Attempt of the Union Railway Company to Vacate the Depot Streets.

A number of property owners of the south side, especially those whose real estate is in the vicinity of the Union depot, held a meeting at Mozart hall last night to take action to oppose the Union railway company in their effort to vacate several of the principal streets near the proposed new depot. Captain Thomas Madden was made president and Louis Esmond secretary. Adolph Edendickler spoke at some length, saying that he believed that the law passed by the last legislature conferring certain powers upon the Union company, upon which they based their alleged right to vacate the streets, was unconstitutional and would not be sustained by the supreme court. That plan was unjust to the property owners, as well as against the public interest, and would result in the loss of the value of property to at least 25 per cent. Mr. Austin H. Brown said he had been deceived in signing the petition of the Union railway company, as until recently he had heard nothing of the proposed vacation of streets. He urged every one present to use his influence with his constituents to secure the defeat of the ordinance. Charles Lauer and others have signed the petition, and they had also been deceived in the matter and they all proposed to sign. A committee on resolutions, consisting of L. Edendickler, A. H. Brown, Charles Heuer, Jacob Wachstetter and Charles Kuhn, was appointed and reported the following, which was adopted:

Whereas, The Union railway company propose to vacate and close portions of Meridian, Illinois, McCall and Louisiana streets, and take possession thereof for their private use, if the common council and board of aldermen of Indianapolis should pass the ordinance proposed for them to that end, and whereas such action would block the main artery of the city, and would cause the trade away from them, and depreciate the value of property on said streets and their respective neighborhoods and would almost cut off connection between the southern and northern parts of the city; and

Whereas, Numerous and expensive suits and heavy damages against the city must be expected in the event of the vacation of public streets into private property; therefore, be it

Resolved, That we earnestly protest and remonstrate against the proposed vacation and conversion of Meridian, Illinois, McCall and Louisiana streets by the Union railway company.

Resolved, That we call upon our representatives in the common council and board of aldermen to remember that they are the guardians of the property rights of all taxpayers and citizens; that to take away the property rights of even a single taxpayer without compensation would be a violation of their trust, but that to take away and destroy the property rights of a great number for the benefit of a few corporations would be a colossal wrong.

Resolved, That while other cities expend large sums to provide themselves with direct, unobstructed and commodious streets and avenues, and thus to accommodate increased intercourse, travel and trade, we are asked to block up and block up a number of principal streets, and to cut off nearly one-half of the people of the city from intercourse with the other side of the city from travel, except by devious out-of-the-way and dangerous passages.

An executive committee, consisting of Charles Lauer, Henry Gimber, Emil Martin, A. Edendickler, A. H. Brown, Thomas Madden and Louis Esmond, was appointed to circulate remonstrances among the property-owners, and to urge the council not to pass the ordinance, and after all present had signed the remonstrance, the meeting adjourned.

The State Bar Meeting.

At the meeting yesterday afternoon of the state bar association, Judge Napoleon R. Taylor was made chairman and State Senator Winter secretary. The chief matter of interest was the discussion of proposed methods for the relief of the association. It was resolved that the chair support a committee of one from each congressional district to report to a bill at the November meeting of the association, to be then considered and presented to the legislature. Judge Taylor was made chairman of this committee, and the other members thereof will be selected at his convenience. A. C. Harris, city; Horace Taylor, Fort Wayne; and Judge Frazier, of Warsaw, were appointed a committee to prepare a program for the November meeting.

The Early Closing Association.

The early closing association gave an entertainment last night at Franklin hall. Rev. Oscar McCulloch delivered an address, in which he said that working people are conscious of tastes and aspirations that are unsatisfied; there is a craving for a larger life. People feel that too much time is given to merely making a living. He held that the request that stores be closed at 6 o'clock is a reasonable one. The success of the movement is gratifying and promising. Edward Lemons gave a clarinet solo; M. H. Spade a violin solo; Mrs. Bailey sang; Joe Cameron gave a cornet solo; Mrs. Manning and Mr. Phipps sang solo; and the Silver Toned quartet rendered acceptable music.

One of Numerous Inquiries.

The secretary of state is constantly receiving inquiries about various mutual aid and similarly organized local life insurance companies, and they are generally accompanied by complaints about the management of these concerns. This morning he received a letter from Mrs. Adeline Palmer, of Burlington,

Mich., who says she had a two-thousand-dollar policy on her late husband in the "Old People's Mutual Benefit association of Elkhart, Ind.," and that other policies had been fraudulently obtained by persons being neither relatives nor possessing any insurable interest in the deceased, and that the secretary is disposed to prefer their claims to hers. She asks what recourse she has, but the secretary can do nothing to help her.

Deductions From Tax Lists.

In answer to an interrogatory from the state auditor as to what deductions can be made from property for taxation, the attorney-general has given the following opinion:

"Indebtedness may be deducted from credits only, and can not be deducted from the amount of any bonds, stocks, money loaned or money at interest. Bonds, stocks, money loaned or money at interest are not credits within the meaning of the statute, from which deductions of indebtedness may be made.

Credits from which deductions may be made may therefore be defined to be whatever is due to the party from another person, company, or corporation payable in labor, property or money, such money constituting a credit within the meaning of the statute, being all money due to a person from all sources, except such as may be owing on any bonds, stocks, money loaned and money at interest.

This rule for the deduction of indebtedness does not apply to stockholders in national banks, concerning which an opinion has been given; but it does apply to all other persons, companies and corporations subject to taxation in this state."

College Alumni.

The alumni of Wabash college last night met in Judge Wood's office and organized the "Wabash College association of Indianapolis."

The following officers were elected: President, William A. Woods, vice-president, Rev. M. J. Haines, treasurer, J. E. Cleland, secretary, Charles W. Moore; executive committee, S. Claypool, J. M. Butler, John Coburn, J. G. Kingsbury, G. L. McNutt and John A. Finch.

The Butler university alumni committee has extended invitations to all old students, whether graduates or not, to meet with them in reunion on the college campus June 17. Brief literary exercises will be held at 11 o'clock, to be followed by a basket dinner. In the afternoon the old students will compete with the present college classes in a hundred yard dash, running race, a ball-throwing match, a bicycle race, a wheelbarrow race, knocking the foot ball, playing base ball, etc., etc.

The Centenarian's Visit.

James Hubbard, the Centenarian, is in the city, the guest of Thomas Record, a son-in-law, 314 East Market st. Mr. Hubbard is something more than a centenarian, having turned his one hundred and first birthday on the 27th of last March. This morning, leaving on the arm of J. Allen, a grandson, the old pioneer took in the sights on Washington street, walking without effort, and more intent upon the purchase of a first-class rat-trap than the attention which his appearance attracted from those who were given such inkling of his great age. He looks as if good for several years yet, both mentally and physically.

The Evangelistic Union.

Fourteen churches were represented at the meeting of the Evangelistic union at Central Christian church last evening. The object of the meeting was to engage a woman missionary for work in this city. Mrs. Haughton, of the Methodist church, was made president; Mrs. L. O. of the Christian, vice president; Mrs. Wright, of the Friends, treasurer; and Mrs. Moats, of the Baptist, secretary. The program and another meeting will be held at Christ church June 8.

I USED ONE and a half bottles of your Athlaphora for rheumatism and I am pleased to say that it entirely cured me. I would recommend any one suffering with rheumatism to give it a trial. Adolph Wagner, 910 Edgar street, Evansville, Ind.

U. S. SENATOR BLACKBURN, of Kentucky, has publicly stated that in prompt efficacy Red Star Cough Cure far exceeds all old-time preparations, being free from poisons, opiates and narcotics. Price, 25 cents.

A Wedding Hat.

At a wedding lately the bride's youngest brother, just out of a jacket, rose after the breakfast and said: "Ladies and gentlemen, I have to propose a toast which must be drunk standing." The guests rose accordingly. "Now," said young brother, "if you will kindly keep on your legs for a few minutes I will find out if the new hat is as good as I bought of Ryan, the Hatter, 21 &amp; 23 South Illinois street."

SOME very nice stiff hats in all colors are shown by Sexton, the hatter, 25 North Pennsylvania street.

HE IS A CRANK ABOUT BIRDS AND FOWLS.

Mr. George Wyat, the genial entertainer of the Bates house, has presented to Harry Newgard, the local avian enthusiast, a small bird, a street, opposite the transfer car chicken with a human head. This ornithological curiosity will be on exhibition in front of his busy little store around the corner. It is a joy to listen to Lucetta, the famous Occidental military parrot, trying to beat the other bird crowing. Mr. Newgard intends to furnish the Zoological institution of the world with eggs as fast as the rooster can lay them.

BOYS' ATTENTION.

We have just received fifty dozen linen hats which we offer at the low rate of FIFTY CENTS.

These hats wear better and look better than straw hats, three times the cost.

## GRAY IS THE BEST.

We do not mean our honored Governor, though he is a good one, no doubt.

We mean gray is the best color for Bicycle Shirts.

"Did you see a man pass here on a bicycle?" "No, mister, I didn't see no bicycle; but I seen a wagon wheel runin' away with a man, right up the middle of the road. Maybe you don't believe me, but I did, sure."

Doubtless that man wore one of our Gray Bicycle Shirts, and hence went so fast as to look as if he was running away.

Great things for speed, those shirts! Wheel up and get one.

Cheap and Inferior Porous Plasters

Will inevitably disintegrate, and are not worth even the few cents asked for them. Among the numerous porous plasters offered for sale Benson's Capsule Plasters alone merit implicit confidence. They have won their great popularity with the people, and gained the voluntary endorsement of the medical profession by their unequalled curative power, and by that only. When purchasing be on your guard against worthless imitations under misleading names, such as "Capiscum," "Capiscum," "Capiscum," etc., as certain bar-keeping druggists may try to palm them off on you in place of the genuine. It is better to deal with name but reputable and honorable druggists. Ask for Benson's, and see that it bears the "Three Seals" trademark, and has the word "Capsule" cut in the center.
